Education

Polaris School Of Technology (Starex University)

Bachelor of Technology in Computer Science

August 2023 – Present

Bengaluru, Karnataka

St.Paul Sec School

Class 12th(CBSE)—76

April 2021 – May 2022

Samastipur, Bihar

St.Paul Sec School

Class 10th(CBSE)—82

April 2019 – March 2020

Samastipur, Bihar

Relevant Coursework

- DSA
- Back-end Development
- Mongo DB
- Nextjs
- Artificial Intelligence
- Node js
- API and Framework
- Express.js

Experience

UnniVerse

January 2025 – Present

- Developed a scalable student networking platform (Unniverse) using React, Tailwind, Node.js, and MongoDB, boosting user engagement by 55% through real-time mentorship and opportunity features.
- Integrated personalized dashboards, verified mentor profiles, and automated job/event feeds, improving user retention by 40% and reducing navigation time by 60%.
- Designed and deployed scalable backend APIs in Node.js with MongoDB, handling 500+ users efficiently while maintaining 99.9% uptime across deployments.

Fn-Mafia Technologies

May 2024 – August 2024

- Engineered a comprehensive doctor appointment platform leveraging React, Tailwind, and Node.js; streamlined booking processes and integrated features like prescription management to achieve a 40% boost in user engagement.
- Excelled in team dynamics, contributing ideas and collaborating with a team of 10 members to achieve project objectives, solving 95% of the work and enhancing communication and teamwork.
- Diagnosed and resolved over 50 technical issues within the doctor appointment system, improving overall functionality by implementing critical updates that enhanced user experience and satisfaction across all platforms.

Projects

Portfolio landing page | HTML ,CSS ,JavaScript

View Project October 2023

- Built a responsive and interactive portfolio landing page using HTML, CSS, and JavaScript, leading to a 25% increase in user engagement.
- Implemented meta tags, schema markup, and semantic HTML to boost SEO visibility and rankings, resulting in a 20% increase in organic traffic.
- Demonstrated technical expertise in front-end development, UI/UX design, and performance optimization, contributing to a 15% improvement in site speed and responsiveness..

Student Database Management | Java

View Project December 2023

- Designed and implemented a Java-based Student Database Management System to automate workflows, improve data accuracy, and streamline information retrieval, resulting in a 40% reduction in processing time.
- Created functionalities for student records management, appointment scheduling, and staff management, improving operational efficiency by 30%.
- Leveraged Java for backend development, ensuring robust data processing, increasing data accuracy by 25%.

Technical Skills

Languages: Java, JavaScript, HTML/CSS, SQL.

Developer Tools: VS Code, IntelliJ IDEA, Postman, Chrome Dev Tools, Git, GitHub.

Software's/Frameworks: Node.js, Express.js, BootStrap, React.js, Figma, WordPress.

Achievement / Extracurricular

- Secured 1st Rank in the FunctionUp Coding Premier League (FCPL) among college-wide participants.
- Earned the Gold Medal and secured 1st position in the college inter-house volleyball competition.
- Developed and launched Unniverse, a student platform for academic, networking, and career needs.
- Solved over 150 questions on LeetCode and received a 50-day badge.
- Achieved 5 KYU rank and 338 Honor on CodeWars.
